Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-3 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The 6/12/06 amendments add the limitations "... a blank run of the solid using no adsorbate " which does not appear to be supported by the original specification.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2-3 are dependent upon "claim 19". This appears to be a typographical error. For the purposes of examination it will be assumed Applicants intended the dependency on --claim 1--.

Claim 4 line 9 "solid(s) or mixtures of solid(s)" is awkwardly written. For the purposes of examination it will be assumed – of the solid(s) or mixtures of solid(s)—was intended.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1 and 3-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lee et al. in view of Lowell.

See the appropriate paragraph of the 3/22/06 Office action.

Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lee et al. in view of Lowell further in view of Wilson.

See the appropriate paragraph of the 3/22/06 Office action.

Response to Arguments

Applicant's arguments filed 6/12/06 have been fully considered but they are not persuasive.

Applicant states the combination of Lee et al. in view of Lowell would not render the instant invention obvious because Applicant does not contemplate using the adsorbate or non-adsorbate to calculate the overall volume of the cell. These remarks are not convincing because the instant claim language is open and does not exclude these additional calculations made the art of record.

Applicant states the instant invention is directed to a blank run using no adsorbate. This limitation is only in claim 1 and appear to be new matter as addressed in the above 35 USC 112 first paragraph rejections.

Applicant states the rejections of Lee et al. in view of Lowell further in view of Wilson has been overcome because the rejection of Lee et al. in view of Lowell has also been obviated. The Office maintains all of the rejections of record are proper.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
